Work Experience

Senior Web Developer at Agora Financial

May 2018 – Present

- Full-stack construction of highly public blog/paid subscription websites for imprints.
- Develop custom integrations (themes, plugins, cron jobs, Apache/NGINX config and more)
- Communicate with imprints on new projects, what is involved, and project timelines.
- Managing weekly content changes/design tweaks for those websites.
- Setting up ad-zones through proprietary OpenX software.
- Setting up user/subscription authentication using proprietary Middleware software.
- Managing all updates for all of the WordPress websites on the server (Around 30).
- Working with Plesk.

Web Developer at Fastspot

April 2017 – May 2018

- Constructing top-notch websites for large-sized businesses with our custom theme boilerplate.
- Develop custom plugins, modules and database structures on a per-project basis to meet the client's needs.
- Maintain direct communication with clients during development, testing, and launch phases to ensure a successful project on deadline.
- Learn the hosting inside and out with the intention of becoming the lead in charge of the hosting department.
- Diversify myself into other projects such BigTree CMS and Drupal.

WordPress Developer at EZMarketing (formerly EZSolution)

July 2015 – September 2016

- Built quality websites on a tight time constraint daily.
- Developed custom themes, child themes, plugins, and custom fields often by scratch to extend the core functionality of WordPress.
- Coded custom jQuery/JavaScript as needed to manipulate the webpage.
- Worked with e-commerce websites using WooCommerce and wrote any custom implementations that were needed.
- Responded countless websites to display on any size device.

WordPress Developer at Multimind Group

January 2015 – April 2015

- Worked heavily with e-commerce WordPress development.
- Developed themes, plugins, and custom fields for each project.
- Converted Adobe Photoshop files to a website.
- Played a secondary role as an SEO Consultant doing on-page SEO, off-page SEO, keyword research and managing social media accounts.

Freelance Web Developer

April 2008 – Present

- Worked with clients to better understand their needs and provide them accurate quotes and expectations.
- Provided team of designers, content writers and SEO consultants with direction and provided a briefing on each project.
- Developed quality WordPress websites using Advanced Custom Fields and the theme customizer to provide for a completely customizable website.

- Worked with lots of WooCommerce projects.
- Diversified myself into other projects such as Joomla and Drupal.
- Had able-bodied team to provide me with the various pieces of the puzzle that I was not able to provide myself.

Education

Bachelor of Science Degree in Multimedia Design and Development

DeVry University, Ft. Washington, PA – 4 months
